

Aeroflex Industries Limited, manufactures diversified stainless-steel flexible hoses. Originally, we were using spun filter cartridges in huge quantities to filter hot water in circulation of our machines. But the filtration was not satisfactory. In addition, we were also facing huge problems with waste disposal.

SS Filters, helped Aeroflex Industries Limited by supplying SS wire mesh back washable type filter cartridges. This increased the filtration area 3-4 times than the original spun filter cartridge. It could be back washed and reused. Hence the consumable cost was reduced.

We are happy & satisfied with the performance of SS Filters filter cartridges & service given by them.

Thanking you,

For Aeroflex Industries Limited.

(Harish Pasbola)
