

## Specification Sheet

### PP CARTRIDGE FILTER HOUSING

**SS Filters** offer PP bag filter housings that are made using polypropylene. These housings are corrosion resistant. The housing can accommodate filter bags of length of 10”, 17” or 32”.

#### **PRODUCTS & SPECIFICATIONS:**

MOC	Polypropylene
Length of Filter bag	Dia 4” x 10” Long, dia 4”x17” dia 7” x 17”, dia 7” x 32”
Inlet/Outlet	¾ “ to 1.5” BSP
‘O’ ring connection	Silicon, EPDM
Vent	Pressure relief button
Max. Operating Temperature	50 ° C
Max. Operating pressure	3.5 bar

#### **FEATURES & BENEFITS:**

- All Polypropylene construction
- Wide chemical compatibility
- Positive sealing
- Low pressure drop design
- Easy to install & maintain

#### **APPLICATIONS:**

- Process water
- Processing chemicals
- Inks & Resins
- Petroleum derivative, Paints
